BTI Platform Global Satisfaction Survey Analysis

This report examines a global satisfaction survey of the BTI platform, highlighting diverse user responses. High satisfaction is noted in Korea (85%) and America (80%), while moderate in Salvador (60%) and Brazil (70%). In contrast, India records a lower rate (30%), indicating market-specific challenges.

The survey reveals varied satisfaction levels across key markets for the BTI platform. High approval in Korea and America contrasts with lower satisfaction in India, suggesting the need for localized improvements.
